

# IMPACT Initiatives continues its adoption of the Climate and Environment Charter for Humanitarian Organisations

## Charter Commitment

01

Step up our response to growing humanitarian needs and help people adapt to the impact of the climate and environmental crises.

04

Increase our capacity to understand climate and environmental risks and develop evidence-based solutions

## IMPACT's commitments for 2025

**Develop** climate change, disaster risk and environment priority areas of focus and expertise in IMPACT's research.

**Strengthen** our technical research expertise on climate change, risk analysis and environmental assessment in house.

**Generate** and disseminate actionable evidence about the humanitarian consequences of climate change and environmental degradation.

**Support** enhanced risk-informed decision-making in the humanitarian sector.

**Mainstream** environment and climate risk analysis in all relevant research programs to inform humanitarian policies and strategies on a large scale

# of country missions developing proposals on climate and DRR.

Baseline data (2024)  
19

Target for 2025  
19

# of ongoing research cycles reporting on climate change, disaster risks and environment degradation.

Baseline data (2024)  
18/464 (4%)

Target for 2025  
4%

# of research products dedicated to / including climate, disaster responses and environment published on the resource center.

Baseline data (2024)  
103

Target for 2025  
100

## Charter Commitment

02

Maximise the environmental sustainability of our work and rapidly reduce our greenhouse gas emissions

## IMPACT's commitments for 2025

**Minimise / optimise** the carbon and environmental footprint of IMPACT's operations, by abiding global standards

**Target for 2025** – 1 environmental footprint analysis (GHG emission baseline – 2023) finalized/ published & adoption of internal measures to reduce the environmental footprint of our operations at HQ.

## Charter Commitment

05

Work collaboratively across the humanitarian sector and beyond to strengthen climate and environmental action

## IMPACT's commitments for 2025

**Inform and contribute** to cross-network dialogues and coordination initiatives on climate action in fragile and crisis contexts

# of partnerships with external global climate and environment actors and networks leading to joint products and publications.

Baseline data (2024)  
3

Target for 2025  
3

# of coordination groups and taskforces on climate and environment IMPACT is part of at global level

Baseline data (2024)  
5

Target for 2025  
5

## 06

Use our influence to mobilise urgent and more ambitious climate action and environmental protection

### IMPACT's commitments for 2024

**Disseminate** key findings about the contribution of climate change related disasters to the humanitarian caseload.

**Showcase** best practices of the use of actionable evidence to inform the design of climate change adaptation programs / humanitarian policies for environmental protection.

# of articles mentioning our Climate & DRR research published on the IMPACT website.

Baseline data (2024)  
23

Target for 2025  
20

# of views / reads of the articles mentioning our Climate & DRR research published on the IMPACT website

Baseline data (2024)  
5,231

Target for 2025  
5,000

# of social media posts mentioning our Climate & DRR research disseminated

Baseline data (2024)  
37

Target for 2025  
35

# mailings (press releases, newsletter, bulletin) mentioning our Climate & DRR research disseminated

Baseline data (2024)  
8

Target for 2025  
8

## ABOUT IMPACT

Created in 2010, IMPACT is a Geneva-based NGO and the largest independent data provider in contexts of crisis. It aims to promote evidence-based decision, shape practices and influence policies in humanitarian and development settings, to positively impact the lives of communities. IMPACT has an established field presence in over 30 countries and is composed of more than 400 staff.

Through our team of assessment, data, geo-spatial, and thematic specialists, we implement people-centred research and set standards for collecting and analysing rigorous, high-quality data in complex environments. IMPACT takes an initiative-based approach to structuring its programming, with REACH, AGORA and PANDA, in direct partnership with aid actors.
